

Category 6 E2 Cable REELEX Packaging - International

Siemon is pleased to announce that Category 6 E2 cable will now be available in REELEX® II packaging. Sometimes known as a “pull box” package, REELEX II is a patented method of winding cable in such a way as to result in a reel-less, self supporting coil. This unique coil dispenses from the inside-out without twists, tangles, snags or overruns.

BENEFITS OF REELEX II PACKAGING:

- ▶ Improved cable payout particularly when pulling multiple cables
- ▶ Reduced waste with the elimination of plastic reel support frames and mandrels

AFFECTED PRODUCTS

Part Number	Description
9C6L4-E2-RXA	CBL,CPR,CAT6,E2,4-PR,SLD,UTP,L5OH-1,VLT,RLX,305M,24AWG

	Reel-in-Box	REELEX® II
Carton Dimensions mm (L x W x H)	365 x 255 x 365	390 x 280 x 375
Cartons per 40ft Shipping Container	1320	1120
Cartons per 20ft Shipping Container	600	480

OTHER CONSIDERATIONS

- ▶ There is no change to price, discount or availability
- ▶ Effective immediately, REELEX II packaging is now the standard packaging for Category 6 E2 International cables (part numbers shown above). Reel-in-box cable will remain available for a period of time as we transition stock. Reel-in-box packaging will be de-emphasized and coded as a non-promoted special item. Part numbers and pricing will be removed from distributor price lists moving forward.
- ▶ REELEX II part numbers are available immediately for quoting and ordering. Stock is available to ship.
- ▶ Siemon’s Category 5e and System 6 UTP cable is also offered in REELEX II packaging. This change will offer packaging consistency to these high volume types.
- ▶ Due to the nature of this change, returns from Distribution are not expected. Any requests will be reviewed on a case-by-case basis.
- ▶ The spec sheet and website have been revised to include the new part numbers.
